MEMORANDUM FOR:

[redacted]
Director, Community Counterintelligence and Security
Countermeasures Office

25X1

FROM:

[redacted]
Director, Planning and Policy Office

25X1

SUBJECT:

FEMA Request for Intelligence Support

As you are well aware, Julius Becton, Director of the Federal Emergency Management Agency (FEMA), requested greater assistance from, and participation in, the Intelligence Community in a memo dated 9 June 1988. In the statement of needs, actions were required by the Intelligence Community Staff in the following areas:

- o Security Issues: CCISCMO
- o Requirements Issues: REO
- o Continuity of Government Issues: PPO

FEMA has continued to contact our office regarding any progress made on the issues discussed in its memo. Many of its requests are security-related issues--designation of an SIO, participation in committees concerning security matters, etc. I would appreciate your expeditious review of the requests in the security area so that we can be responsive to FEMA in a timely manner.

25X1

25X1

*The "we" in the last sentence is the
IC Staff - PPO has no interest in becoming
a focal point for FEMA related IC activities*
